IARI

PUBLISHED BY THE SOCIETY  
GENEVA, N. Y.  
1929

# GENERAL INDEX

## TO THE

# JOURNAL

## OF THE

# American Society of Agronomy

NOTE—Four volumes of "PROCEEDINGS" were issued by the Society preceding the inauguration of the JOURNAL in 1913, but in this Index no distinction is made between the PROCEEDINGS and the JOURNAL. The numbers in bold face refer to volumes, the others to pages.

### A

- Aamodt, O. S. **11**, 291; **19**, 206  
 Abell, M. F. **18**, 432  
 Abbott, J. B. **17**, 68  
 Acid phosphate, substitution of "super-phosphate" for **20**, 88  
 Acid soils, detection of **8**, 23  
     effect of fertilizers and soil appendments on **9**, 25  
     effect on crops **10**, 45  
     legumes for **16**, 173  
     litmus paper as a test for **10**, 180  
     thiocyanate test for, with regard to various organic solvents **17**, 492  
     toxicity of **13**, 108  
 Acidity methods in soil survey work **20**, 881  
 Acids, effect on plant growth when added to soil **16**, 278  
 Accuracy in field tests **15**, 192; **17**, 140  
 Adams, J. E. **18**, 1103  
 Adaptation of red clover strains **20**, 557  
 Adaptation of tepary bean **11**, 247  
 Adapting fertilizer analysis to crop **13**, 353  
 Adjacent rows of sorghums, yields in variety and spacing tests **20**, 582  
 Adjustments in standards of living as population increases **17**, 245  
 Advisory board on agronomy to National Research Council **12**, 148, 235; **14**, 252, 375  
*Aegilops triuncialis* **20**, 1292  
 Affiliation of agricultural societies **2**, 27, 30, 33; **3**, 22  
 Africa, plant life in **16**, 471  
 After effects of sorghum **16**, 689  
 Age of rice seed, effect on germination **18**, 576  
 Agricultural education in France **18**, 38  
 Agricultural practice, application of plat results to **20**, 455  
 Agricultural problem, what agronomists can contribute to its solution **18**, 1057  
 Agricultural research, service to American industry **15**, 473  
 Agricultural retrospect **16**, 147  
 Agriculture in Brazil **17**, 725  
 Agriculture in Central America **17**, 318  
 Agronomic curriculum, crop ecology and ecological crop geography in **20**, 336  
 Agronomic investigations, outstanding weaknesses in **17**, 88  
 Agronomic placement of varieties **13**, 337  
 Agronomic problems, applications of law of diminishing returns to **17**, 189  
 Agronomic research, increasing efficiency of **14**, 329  
     meeting responsibilities in **19**, 1049  
     place of publication of **19**, 2  
     popular presentation of results of **19**, 62  
     symposium on publication of **19**, 1-67  
     taking to the farmer **17**, 757  
 Agronomic research on the corn borer in Ohio **20**, 1011  
 Agronomic science and increased production **16**, 757  
 Agronomic science and plant physiology, symposium on **17**, 661-716  
 Agronomic teaching, symposia on **13**, 49, 85; **14**, 371  
 Agronomic terminology **2**, 14; **3**, 22; **4**, 19, 24; **5**, 247; **6**, 289; **7**, 314; **8**, 1, 197, 228, 310, 390; **10**, 354; **12**, 233; **13**, 374; **14**, 360; **15**, 522; **16**, 802; **17**, 825; **18**, 1143; **19**, 1128; **20**, 182  
     criticism of **20**, 519, 523

- Agronomic unit, variety as 16, 366  
 Agronomist, American, his status and future 3, 31  
     American, work of 7, 257  
     relation to the farmer 5, 193  
 Agronomist of the future 9, 385  
 Agronomist's part in world food supply 12, 217  
 Agronomists, extension, 1924 conference of 17, 122  
 Agronomy, appointment of editor for, on *Biological Abstracts* 18, 526  
     cooperative research in plant physiology and 18, 60  
     definitions of 1, 17  
     development and proper status of 1, 17  
     fundamental principles in 6, 227  
     list of current literature of 18, 448  
     needs of research in plant physiology in field of 17, 661  
     some Brazilian problems in 5, 34  
     statistics of workers in 1, 19  
     symposium on economic relationships of 17, 189-252  
     symposium on extension work in 16, 305-352  
     symposium on methods and relations in extension work in 18, 1-31  
     technical terms in 2, 86  
     training for specialists in 4, 53  
     use of mathematics in 18, 703; 20, 443  
 Agronomy and botany 6, 89  
 Agronomy department, responsibility in developing good seed and seed certification 18, 7  
 Agronomy extension work, most efficient organization in the college 18, 2  
     part-time specialist in 18, 5  
 Agronomy research committee of southeastern states 20, 414  
 Agronomy Section, Southern Agricultural Workers' Assoc., minutes of 1927 meeting 19, 1045  
 Agronomy students, organizing 15, 525  
 Agronomy subjects, prerequisites in 13, 49  
 Agronomy teaching 13, 363  
     demonstration plats in 5, 55  
     use of assigned readings in 4, 51  
 Aicher, L. C. 9, 217  
 Alben, A. O. 19, 984; 20, 36  
 Albert, W. B. 19, 624, 590, 1021  
 Alberts, H. W. 18, 375, 603, 1029; 19, 567  
 Albrecht, W. A. 10, 83; 14, 49; 18, 841; 20, 123  
 Alcohol, methyl, determination of soil moisture with 20, 82  
     rapid determination of soil moisture with 19, 197, 469  
 Aldehyde, salicylic, field tests with 6, 108  
 Aldehydes, soil, fertilizer action on 8, 273  
 Aleurone and endosperm in maize, factors for color of 18, 761  
 Alfalfa, accumulation of nitrates after 16, 396  
     cross-pollination in 11, 259  
     cutting treatments 16, 169  
     effect of alternate freezing and thawing on impermeable seed of 18, 1087  
     effect of clipping on root development 8, 329  
     effect of color, scarification, and dry heat on germination of seed, and of its impurities 18, 743  
     effect of different methods of inoculation on yield and protein content 7, 172  
     effect of dry heat on seed and on its adulterants 17, 32  
     effect of fertilizers on maintaining stand 20, 109  
     effect of frequent cutting on production, root reserves, and behavior of 17, 100  
     effect of inoculation 9, 127  
     effect of scarification on longevity of seed 14, 298  
     effect on nitrogen content of soil 9, 305  
     effect on soil nitrification 1, 217  
     glandular pubescence in 10, 159  
     growth studies 19, 624  
     problems in the East 16, 164  
     seeding with and without a nurse crop 1, 150  
     soil reaction in fields of 19, 351  
     tests of seed from different sources 1, 145, 149  
 Alfalfa and sweet clover, comparative value on soils in lower Yakima Valley 17, 326  
 Alfalfa crown wart in western U. S. 8, 244  
 Alfalfa flowers, relation of seasonal behavior to seed production 20, 542  
 Alfalfa hay, curing 19, 116  
 Alfalfa in history 15, 171  
 Alfalfa plants, deposition and utilization of reserve foods in 19, 596  
 Alfalfa root systems, effect of soil structure on character of 17, 336  
 Alfalfa species, first-generation crosses of 12, 133  
 Alfalfa yields, green weights as basis of 6, 42  
 Alkali and non-alkali soils, quantitative and qualitative determination of replaceable sodium in 20, 1160

- Alkali forage weed 19, 750  
 Allen, E. W. 2, 30  
 Allison, R. V. 15, 409; 16, 26  
 Allyn, O. M. 15, 73  
 Aluminum, effect on acid soils 10, 45  
   effect on soil organisms 15, 277  
 Aluminum compounds in the corn plant 15, 323  
 Alway, F. J. 10, 265  
   election as Fellow 19, 1116  
 Amendments to the constitution of the Society 3, 26; 15, 531  
 American industry, service of agricultural research to 15, 473  
 Ames, J. W. 20, 808  
 Ammonia, determination in rainwater from exposed and protected gage 17, 589  
 Ammonia and nitrate studies of lakes near Madison, Wis. 18, 897  
 Ammonification, effect of potassium fertilizers on 15, 485  
   in red prairie soils 18, 177  
   in Yahola soils 20, 89  
 Ammonium sulfate, buffer capacity of soils in relation to development of soil acidity from 19, 332  
   lime needs of 19, 843  
   nitrification in soil 18, 876  
   rate of utilization in hill fertilization of corn with a 2-12-2 fertilizer 18, 1083  
 Analysis, use of word 16, 372  
 Analysis of cereal yields 2, 40  
 Anderson, A. 19, 116  
 Annual forage crops for dry-lands 5, 176  
 Annual legumes, function of 17, 403  
 Anthracnose in cotton, the seed an important factor in control 4, 129  
 Appleton, H. H. 17, 596  
 Approved seed plan 13, 330  
 Arid soils, nitrification in 4, 132  
 Army, A. C. 7, 172; 8, 358; 9, 127, 344; 10, 134; 11, 33, 81; 14, 266, 289; 16, 268, 384, 488; 18, 684; 19, 410; 20, 373, 557  
 Articles, controversial policy of Journal regarding 5, 122  
 Artificial farmyard manure from fermenting straw 19, 577  
 Artificial plats for field experiments 18, 596  
 Ash content of plants 16, 278  
 Aslander, A. 18, 1101  
 Asparagus, planning fertilizer experiments for 18, 521  
 Association of southern agricultural college workers 14, 134  
 Atkinson, A. 20, 1251  
 Atterberg consistency constants 20, 354  
 Ausermus, E. R. 20, 152  
 Auto-irrigator cones, porous clay, for watering potted soil and plants 19, 252  
 Availability of phosphorus in floats 16, 96  
 Availability of soil potassium, phosphorus, and sulfur and effect of lime on 13, 162  
 Averages, two, reliability of difference 16, 359  
 Awnedness in rice, inheritance of 19, 830  
 Awns, inheritance in crosses between Sevier and Federation wheats 20, 160  
 Azotobacter, cellulose decomposition products as a source of energy for 20, 511  
   soil inoculation with 17, 456
- ### B
- B. Amylobacter*, cellulose decomposition products as a source of energy for 20, 511  
 Bacteria, distribution in various soil types 5, 218  
   legume, effect on nodulation of supplementing with artificial cultures in soil 18, 280  
   legume, in sun-dried soil 14, 149  
   legume, population of, in soil 18, 911  
 Bacterial activities of soil and higher plants 10, 313  
 Bacterial nitrogen fixation 17, 445  
 Bacterial symbiosis 16, 373  
 Bacteriological analysis, soil sampling for 7, 239  
 Bacteriology, soil, symposium on 18, 834-911  
   soil, teaching 13, 323  
 Bahia grass 12, 112  
 Bailey, C. H. 6, 57, 215; 9, 155, 248, 275; 14, 88; 15, 345; 17, 753  
 Bailey, L. H. 9, 1; 10, 215  
 Bailey, M. V. 20, 118  
 Baker, W. G. 17, 172  
 Baking quality of wheat 25 years old, note on 18, 367  
 Baking tests, einkorn 10, 215  
   emmer 10, 215  
   Polish wheat 10, 215  
   spelt 10, 215  
 Ball, B. 2, 55  
 Ball, C. R. 5, 165, 235; 8, 1, 197, 228, 310, 337; 10, 87; 16, 556; 17, 514, 661; 19, 8; 20, 182, 523, 1033  
   appointment as editor for agronomy on *Biological Abstracts* 18, 526  
   election as Fellow 18, 608  
 Barker, H. D. 14, 289

- Barley, Coast, comparison of selections of 19, 660  
 effects of successive cropping 9, 325  
 gain in importance 15, 428  
 improved method of producing F<sub>1</sub> hybrid seeds of 19, 968  
 natural crossing in 20, 1193  
 registration of varieties 18, 947, 1145; 20, 1326  
 smooth-awned 12, 205  
 physiological value of 14, 113  
 statistical methods in study of 5, 83  
 statistical study in N. Dak. 6, 171  
 varieties in Wisconsin 1, 28  
 winter, in Michigan 6, 217
- Barlow, J. T. 8, 23
- Barnes, E. E. 16, 241; 17, 403
- Barnes, W. C. 16, 202
- Barnette, R. M. 17, 125
- Barney, A. F. 16, 283
- Barn yard manure, artificial, production by fermenting straw 19, 577  
 effect on yield of sugar beets 19, 167
- Barron, J. H. 17, 380
- Barre, H. W. 4, 129
- Bartholomew, R. P. 20, 55, 913, 1048, 1305
- Barton, J. 14, 182
- Base exchange capacity of soil colloids and electrokinetic behavior 18, 458
- Base exchange and retention of anions by soils 18, 497
- Base exchange and soil acidity 20, 309
- Base exchange in soil colloids and availability of exchangeable calcium in soils 18, 470
- Base exchange in soils, discussion of 18, 450
- Base exchange phenomena, general discussion of 18, 505
- Base exchange phenomena in soils, symposium on 18, 450-515
- Basic slag, use in correcting acidity from nitrogenous fertilizers 20, 270
- Bassia hyssopifolia*, an alkali forage weed 19, 750
- Bates, F. W. 4, 108
- Bauer, F. C. 15, 99; 16, 325
- Baver, L. D. 20, 403, 921, 1125
- Bayles, B. B. 20, 304, 1055
- Bean, velvet, origin of varieties of 10, 175
- Beans, inheritance of disease resistance in 13, 15  
 tepary, adaptation of 11, 247  
 white, effect of rate and method of fertilizer application on germination of 19, 270
- Bear, F. E. 8, 111; 11, 319; 14, 136, 307; 16, 437; 19, 527
- Beattie, J. H. 9, 25
- Beaumont, A. B. 13, 79; 14, 79; 15, 79; 18, 238, 442, 1025
- Becker - Dillingen's "Handbuch des Getreidebaues," review of 20, 86
- Beeson, K. E. 18, 444
- Beets, effect of cold on growth of 17, 54  
 effect of soaking seed before sowing 17, 49  
 sugar, breeding in the Arkansas Valley of Colorado 17, 631  
 experiments in transplanting 8, 106
- Bennett, H. H. 16, 421; 17, 318
- Bermuda grass seed, germination of 10, 279
- Bibliographical contributions on soils 19, 951
- Bibliography on standardization of field experiments 15, 33
- Biffen, R. H. 18, 516
- Biggar, H. H. 10, 183; 11, 230
- Bindweed, field, magnesium chlorate and calcium chlorate as substitutes for sodium chlorate for killing 20, 1329
- Biochemistry, research in 16, 607
- Biological processes, relation of sorghum roots to 20, 747
- Biometrical study of effect of environment on pure line of oats 20, 1251
- Biometrical study of factors affecting yield in oats 20, 1108
- Bizzell, J. A. 1, 222; 4, 35; 5, 38, 45, 65, 80; 8, 81, 88; 10, 97; 14, 320; 15, 457; 16, 396; 18, 130
- Black stem rust, immunity from, inherited as a dominant character in Hope wheat 20, 152
- Blackwell, C. P. 18, 1044
- Blair, A. W. 14, 162, 220
- Blooming of wheat flowers 11, 143
- Bluegrass, bulbous 20, 394  
 increased growth from association with sweet clover 17, 813  
 Kentucky, history in U. S. 8, 256
- Bluegrass pasture, injury from burning off old grass 18, 815  
 permanent, establishing sweet clover in 20, 1197  
 improvement with sweet clover 19, 994
- Boatman, B. 18, 876
- Boll, F. E. 5, 1
- Bolley, H. L. 1, 159; 2, 81; 11, 196
- Boltz, G. E. 10, 210
- Bonnett, R. K. 15, 161
- Border effect 14, 266
- Border rows, influence of, in variety tests of small grains 19, 585
- Bort, Katherine S. 7, 1; 8, 256

- Brown, P. E. 7, 97, 216; 8, 42, 13, 63,  
323; 14, 198; 15, 77; 16, 137; 17,  
456  
election as Fellow 18, 609
- Brunson, A. M. 16, 60; 18, 308
- Bryan, O. C. 16, 486
- Bryan, W. C. 10, 279
- Bryan, W. E. 17, 440
- Buckman, H. O. 2, 121; 5, 157; 12, 55;  
15, 55; 16, 86, 96; 20, 646
- Buffer action, hydrogen-ion concentra-  
tion, and soil type as guide to use  
of lime 17, 345
- Buffer capacity of soils in relation to  
development of soil acidity from  
ammonium sulfate 19, 332
- Buie, T. S. 20, 193
- Bull, C. P. 1, 95
- Bunt, studies preliminary to breeding  
wheat resistant to 19, 655
- Burgess, J. L. 3, 58; 11, 118
- Burkart, F. L. 15, 161
- Burleson, D. J. 20, 202
- Burlison, W. L. 16, 440; 19, 1049
- Bushel weight, methods for determin-  
ing 7, 121  
wheat, effect of continuous selection  
of large and small seed 20, 856
- Butler, O. 11, 114, 304
- Butler, O. R. 5, 1
- Butt, N. I. 12, 158
- C
- Cabbage, effect of cold on growth of  
17, 54  
effect of soaking seed before sowing  
17, 49
- Caffrey, D. J. 20, 997
- Cahn, E. 17, 591
- Calcic and magnesian additions in sur-  
face soil, reciprocal repression by  
18, 482
- Calcium, exchangeable, base exchange  
in soil colloids and availability of  
18, 470  
exchangeable, relation of soil type to  
20, 657  
function in nutrition of seedlings  
13, 91
- Calcium chlorate and magnesium  
chlorate as substitutes for sodium  
chlorate for killing field bindweed  
20, 1329
- Calcium in drainage water from limed  
and unlimed soil 8, 81
- Call, L. E. 4, 49; 6, 249; 9, 49; 10, 35;  
13, 49; 14, 329  
election as Fellow 18, 609
- Call for initial meeting for organization  
of Society 1, 6
- Cameron, F. K. 2, 102
- Campbell, E. G. 16, 91
- Capillary lift in soils, method of  
measuring 5, 107
- Carbohydrate, photosynthetic, rela-  
tion to nodule formation on soy-  
beans 18, 1012
- Carbon, organic content of irrigated  
soils, effect of cropping on 19, 280
- Carbon dioxide content of soil air  
10, 97
- Cardon, P. V. 14, 69
- Carleton, M. A. 1, 17; 2, 68; 7, 78  
bibliography of publications by 2, 9

 Conrey, G. W. 20, 881, 893  
 Consistency constants, Atterberg, study of 20, 354  
 Constitution and by-laws of Society 1, 14; 3, 21, 29; 4, 25  
 amendments to 1, 9, 11, 14; 3, 26  
 Constitution for affiliated societies 2, 29  
 Containers for plants under control conditions 8, 114  
 Contradictory results of corn experiments, reasons for 11, 106  
 Control of flax wilt by seed selection 11, 291  
 Controversial articles, policy of Journal regarding 5, 122  
 Cook, G. C. 16, 30  
 Cook, O. F. 11, 299  
 Cooper, H. P. 15, 15  
 Copper, significance in forage crops and foods 17, 368  
 Copper carbonate duster 16, 482  
 Copper sulfate, effect on nitrification 8, 10  
 Corn, application of close breeding in 14, 51  
 comparison of selfed lines and first generation crosses between them 19, 819  
 competition between adjacent rows 20, 83  
 correlation between ear characters and yield 9, 315  
 correlation between germination and yield 16, 483  
 dent, ear type selection and yield 14, 27  
 relation of seedling vigor and diastatic activity to composition of endosperm and stage of maturity 20, 133  
 determining self-pollination in 9, 35  
 developing a high-yielding strain 17, 487, 804  
 differences in functioning of selfed lines under varying nutritional conditions 18, 322  
 ear characters not correlated with yield 5, 117  
 ear, treatment to preserve samples of 14, 93  
 effect of broken pericarp on germination and yield 16, 540  
 effect of different methods of applying fertilizer to 5, 141

- Corn, effect of fertilizer in protecting against freezing 17, 517  
 effect of fertilizers on ear characters 16, 551  
 effect of fertilizers on yield and market condition of 14, 153  
 effect of foreign pollen on kernel weight 16, 30  
 effect of pericarp injury on moisture absorption, fungus attack, and vitality of 19, 1021  
 effect of position on growth of seedlings 9, 267  
 effect of temperature upon metabolism and expressions of disease resistance in selfed lines of 18, 314  
 factors for color of aleurone and endosperm 18, 761  
 first generation varietal crosses 14, 18  
 Guam 12, 149  
 heating value 15, 1  
 heritable variations 14, 73  
 hill fertilization 18, 1083  
 immediate effect of crossing on size of seed 7, 265  
 intensive production of single crosses between selfed lines for double crossing 20, 942  
 judging and the productiveness of 17, 313  
 lodging in selfed lines and in  $F_1$  crosses 20, 1314  
 mathematical inquiry into influence of amount and distribution of rainfall on yield 17, 356  
 method employed at Cornell Experiment Station in testing  $F_1$  hybrids 18, 794  
 moisture content in relation to relative humidity and temperature of atmosphere 18, 1029  
 new method of growing 6, 84  
 planting plats with same ears to secure uniform yields 2, 35  
 planting rates in spacing for 12, 1  
 plat arrangement for variety experiments 1, 84  
 preparation of seed 10, 183  
 production of high protein in 11, 309  
 program for improvement under Purnell Act 18, 823  
 projects 18, 1146  
 registration of varieties 19, 1129  
 relation between yield and ear characters in 10, 250  
 relation of cob to other ear characters 9, 201  
 relation of ear characters to yield 8, 188; 10, 250; 11, 230  
 relation of endosperm character to absorption of hygroscopic moisture 19, 590  
 relation of number of seminal roots to yield 19, 466  
 relation of selfed strains to  $F_1$  crosses between them 19, 440  
 relation of smut infection to yield 20, 735  
 relation of stand to yield 20, 1235  
 relation of time of planting to time of silking, denting, and senescence 18, 375  
 relation of vigor of plant to yield 9, 340  
 relation to yield of a defective endosperm in heterozygous condition 19, 797  
 seed, characteristics of disease-free 16, 37  
 effect of immaturity on shrinkage, shelling percentage, and germination 18, 603  
 effectiveness of selection based on ear characters 17, 113  
 formaldehyde treatment of 12, 39  
 from varietal crosses 20, 411  
 fungi in 14, 354  
 method for storing small quantities 19, 567  
 varietal crosses from 20, 411  
 water absorption and germination 16, 473  
 yields from broken and entire kernels 12, 196  
 self-fertilization 10, 123  
 seminal roots 19, 467  
 sucker production 3, 51  
 tasseling and silking as criteria of earliness in 19, 454  
 thinning, removal of plant food in 18, 962  
 time of seeding and turning vetch for 20, 294  
 water economy of selfed lines and their hybrids 18, 335  
 Corn belt, crop rotations in 19, 545  
 future of sweet clover in 17, 409  
 Corn Belt Section of Society, minutes of 1925 meeting 17, 659  
 minutes of 1926 meeting 18, 829  
 Corn borer 18, 1149; 19, 1141  
 agronomic research on 20, 1011  
 in Ohio 19, 137  
 entomological research on 20, 997  
 in Ohio 19, 128  
 cooperation in research on 20, 1033  
 Corn breeding, discussion of Connecticut system of 18, 437  
 experimental basis for present status of 14, 1  
 for resistance to smut 17, 132  
 present-day problems of 18, 344  
 Corn crosses, reciprocal, equality of kernel row numbers in 20, 1069  
 inequality of reciprocal 12, 185

- Sodium, replaceable, qualitative and quantitative determination in alkali and non-alkali soils 20, 1160
- Sodium chlorate, eradicating quack grass with 20, 1120
- substitutes for, for killing field bindweed 20, 1329
- Sodium chloride, effect on development of legumes 10, 246
- Sodium in drainage water from limed and unlimed soil 8, 81
- Sodium nitrate, effect on wheat 9, 145; 10, 193
- Soil, accumulation of nitrates in 15, 457
- accumulation of nitrates in, after clover or alfalfa 16, 396
- acid, effect on crops 10, 45
- legumes for 16, 173
- thiocyanate tests for, with regard to organic solvents 17, 492
- toxicity of 13, 108
- Trufast test for 12, 65
- acidity from ammonium sulfate and buffer capacity of soils 19, 332
- acidity methods in soil survey work 20, 881
- action of precipitated magnesium on 9, 285
- alkali and non-alkali, quantitative and qualitative determination of replaceable sodium in 20, 1160
- arid, intensity of nitrification in 4, 132
- base exchange and acidity of 20, 309
- Soils, base exchange in 18, 450
- bibliographical contributions on 19, 951
- buffer capacity in relation to development of soil acidity from ammonium sulfate 19, 332
- carbon dioxide content of air of 10, 97
- causes of granulation 2, 106
- cereal cropping after sterilization of 2, 81
- chemical composition in relation to water extract 20, 793
- choice of electrodes in electro dialysis 20, 36
- colloidal content of 17, 270
- colloidal determination in mechanical analysis 17, 275
- comparative value of alfalfa and sweet clover for, in lower Yakima Valley 17, 326
- concentrated fertilizers and special chemicals for treatment of 16, 291
- conditions promoting nitrogen fixation in 16, 701
- crotalaria as a crop for improving 19, 944
- decomposition of organic matter in 10, 281
- deleterious effects of sorghum on, and on succeeding crops 17, 91
- detection of acidity 8, 23
- determination of nitrogen in 16, 789
- determination of volume weight 9, 38
- dry, swelling coefficient when wetted 14, 302
- drying of 7, 49
- economics of liming 17, 211
- effect of acidity of, on plant growth 15, 290
- effect of added acid on plant growth 16, 278
- effect of chemical agents on texture and structure 19, 788
- effect of colloidal content on physical properties 17, 285
- effect of cropping on nitrogen content 16, 363
- effect of fertilizers on bases and acids extracted by electro dialysis 20, 1141
- effect of grinding on reaction by Veitch method 7, 216
- effect of higher plants on bacteria in 10, 313
- effect of inorganic substances on organisms of 15, 277
- effect of irrigation water on composition 14, 207
- effect of lime and manure on 15, 442
- effect of lime on drainage water from 13, 124
- effect of liming on availability of potash in 19, 483
- effect of manure in, on availability of phosphorus in floats 16, 96
- effect of nature of exchangeable bases upon retention of anions by 18, 497
- effect of nitrogenous fertilizers under anaerobic conditions of rice production on reaction of 20, 1305
- effect of organic materials on transformation of nitrogen in 7, 193
- effect of structure on alfalfa root systems 17, 336
- effect of Sudan grass on biological processes 14, 235
- effect of sulfonation upon organic matter in eastern Wash. 17, 40
- effect of temperature of, on availability of plant nutrients 3, 191
- effect of treating with sulfur dioxide on nodule formation and seed production in soybeans 17, 309
- effect on quality of soft red winter wheat in Ohio of amendments to 18, 629

- Soil, effect on soil acidity of amend-  
ments to 9, 25  
effect on transpiration 3, 130
